Professional Aesthetic Training Courses

Your pathway to mastering advanced beauty techniques

1. Anti Wrinkle Advanced

This advanced course is designed for experienced practitioners who have already mastered the basics of aesthetics. It explores advanced injection methods, product selection and combination therapies to achieve natural-looking wrinkle reduction and facial rejuvenation.

2. Foundation Anti-Wrinkle

A perfect starting point for professionals new to aesthetic medicine, covering the essentials of anti-wrinkle treatments, patient assessment, injection fundamentals and safe practice.

3. Anti Wrinkle Combined Offer

A comprehensive package combining foundation and advanced anti-wrinkle training for a complete understanding of both basic and advanced techniques.

4. Ultimate Skin Boosters HA

Hands-on training with hyaluronic acid skin boosters such as Profhilo, Jalupro and Sunekos to improve skin hydration, firmness and texture.

5. Foundation Dermal Filler

Introductory dermal filler training covering facial anatomy, product selection and basic injection skills to achieve natural enhancements.

6. Advanced Dermal Filler

Advanced techniques for dermal filler applications including contouring, volumisation and complication management for optimal aesthetic outcomes.

7. Pathway to Aesthetics

A structured programme introducing core aesthetic principles, practical skills and knowledge necessary for a successful career in aesthetics.

8. Advanced Lip Filler Masterclass

Masterclass focusing on lip augmentation techniques that emphasise balance, proportion and artistry to deliver natural-looking results.

9. Aqualyx Fat Dissolving

Practical training on the use of Aqualyx® fat-dissolving injections for non-surgical body contouring and localised fat reduction.

10. Microneedling

Comprehensive training in microneedling for skin rejuvenation, scar improvement and texture enhancement.

11. PDO Thread Lift

Training on PDO thread-lifting techniques for non-surgical facial lifting, tightening and collagen stimulation.

12. Fat Dissolve (Lemon Bottle)

Course focusing on Lemon Bottle fat-dissolving injections for targeted adipose reduction and body contouring.

13. Complication Management

Specialised training to recognise, prevent and manage complications associated with aesthetic treatments, ensuring patient safety and satisfaction.

14. Juvelook & Lenisna

Course on hybrid polylactic-acid fillers Juvelook and Lenisna for skin bio-stimulation, addressing fine lines, volume loss and skin quality.

15. Gouri PCL Collagen

Training on Gouri PCL collagen stimulator injections to boost collagen production for facial and neck rejuvenation.

16. Anatomy & Physiology

Essential overview of anatomy and physiology for aesthetic practitioners, covering facial structures, nerves and safe injection practices.

17. Filler Dissolving

Training in the use of hyaluronidase and other agents to safely dissolve dermal fillers and correct overfilling or adverse results.

18. B12 & Biotin Injection

Instruction on administering intramuscular B12 and biotin injections to support wellness, energy levels and hair/skin health.

19. Chemical Peel

Professional techniques and protocols for chemical peel application to rejuvenate skin, improve tone and texture and treat pigmentation.

20. Dermaplaning

Training in manual dermaplaning to exfoliate the skin and remove vellus hair, enhancing skin smoothness and product absorption.

21. Mesotherapy (Face & Hair)

Mesotherapy injection techniques delivering vitamins, minerals and amino acids to nourish and rejuvenate the face and stimulate hair growth.

22. Hair Filler

Course on scalp filler injections designed to support hair density and improve scalp health.

23. Skin Booster HA (Profhilo, Sunekos, Jalupro)

Hands-on training across various hyaluronic acid skin boosters to enhance skin hydration, elasticity and overall appearance.

24. IV Drip Therapy

Training on intravenous nutrient therapy for hydration, wellness and recovery using customised vitamin and mineral blends.

25. Polynucleotide & Lumi Eyes

Course on polynucleotide-based treatments and Lumi Eyes for periocular and facial rejuvenation, improving elasticity and reducing dark circles.

26. Vitaran Polynucleotide & Stem Cell Therapy

Instruction in polynucleotide and stem-cell therapies, such as Vitaran, for regenerative skin treatment and rejuvenation.

27. Sculptra Aesthetic Training

Training in the use of Sculptra poly-L-lactic acid injections for long-term collagen stimulation and volume restoration.

28. Ellansé Training

Course covering Ellansé bio-stimulator fillers that provide immediate volume while stimulating collagen for lasting results.
